

Nicolás A. Ortega Froysa

SOFTWARE ENGINEER · NETWORK ADMINISTRATOR

Seville, Spain

☎ (+34) 640 21 28 38 | ✉ nicolas@ortegas.org | 🏠 themusicinnoise.net | 📷 naortega | 📧 naortega

Skills

Programming C, C++, x86 Assembly, Rust, Bash, Java, PHP, Oracle PL/SQL, \LaTeX
Tools Linux, CMake, Docker, DOxygen, SQLite, MariaDB, GitLab CI, SSH, NGinx, Vim
APIs OpenMP, OpenGL 2.0/3.0+, C++ STL, OpenAL, NCurses, Qt
Languages **Native:** English (C2), Spanish · **Novice:** Portuguese, Esperanto

Experience

Zevenet

JUNIOR C++ DEVELOPER

Mairena del Aljarafe, Spain

Sep. 2022 - PRESENT

- Programming with modern C++ standards (C++17).
- Team collaboration in a dynamic project environment.
- Code repository management using Git CVS.
- Maintaining build system using CMake.

DMUX

DEVELOPER - CO-PROJECT LEADER

Remote

Sep. 2015 - Nov. 2016

- Development of a 3D, derby-style, shooter game written in modern C++.
- Collaboration with various other developers in large-scale project using Git version control tool.
- Configuring the CMake build system for the project, linking to dependency libraries.
- Had to adapt to a constantly changing development environment.
- Asynchronous communication with teammates in different timezones.

Education

CEU San Pablo Andalucía

DEGREE IN ADMINISTRATION OF COMPUTER NETWORKS

Bormujos, Spain

2021 - Est. 2023

- Exercises in Linux system administration.
- Configuration of complex virtual networks using Cisco Packet Tracer™.
- Setting up Docker instances of web services.
- Management of Oracle databases and programming with Oracle PL/SQL.

International Baccalaureate Diploma Programme

IB DIPLOMA GRADUATE

Minnesota, USA

2015

- Higher level exams in English, Spanish, and Economics.
- Standard level exams in Physics, Visual Arts, and Calculus.
- Final paper on The Free Software Movement and Intellectual Property.

Projects

Colonel

A small personal kernel project written in C and Assembly. Compatible with x86 architectures, bootable with GNU GRUB, and built using the GCC cross-compilation tool-chain and the CMake build system.

Indivisible

A highly optimized prime number generator with $O(n)$ time complexity for n^{th} prime generation, and $O(\sqrt{n})$ for prime testing. Written originally in C using OpenMP, then later ported to Rust.

SAUS

Scripted AUdio Software is a very flexible command-line tool for real-time scripted audio filtering via JACK audio inputs. The C program passes input frequencies through a user-defined script written in Python.
